DETAILED ACTION

Allowable Subject Matter

Claims 1-6 are allowed.

Examiner's Reasons for Allowance

The independent claim is directed to a detailed, computer implemented method of transmitting electronic voice messages.

The closest prior art of record is U.S. Patent No. 6,246,983 B1 ("Zou"), as applied in the prior Office action.

However, Zou fails to disclose the detailed combination of additional steps introduced into the claims by the applicant's amendment on December 23, 2004.

The prior art of record, U.S. Patent No. 5,557,659 ("Hyde-Thomson"), newly cited, teaches of many of these additional steps introduced by amendment. However, Hyde-Thomson fails to disclose or even contemplate the claimed limitations directed to a "voice command zone" and "array of command instructions".

Neither Hyde-Thomson nor the remaining prior art of record teaches or fairly suggest the substantial modification to Zou that would have been required in order to arrive at the invention as claimed in detail by the applicant.

Art Unit: 2645

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
